Not a conventional academic seminar, this one focused on a very relevant topic—the purpose of being engaged in government jobs. In an age when unemployment-anxieties disturb every student and fear of underemployment and/or insecure private jobs and/or instable career often end up as a root cause of mental health issues, this webinar was a highly significant one. The resource person Mr Sourav Mitra addressed the participants and asked if they are government job aspirants, to which almost all gave an affirmative answer. Then he said that no job has such a wide range of emoluments as government job in West Bengal.
